

Start Your Career in Engineering Excellence!

Apprentice Metallurgist

Package: Up to £24k dependent on qualifications, plus bonus and benefits

Location: Great Yarmouth

Are you curious about how metals behave under extreme conditions? Do you want to work at the cutting edge of materials science? With a reputation for delivering amazing customer service, our client is offering an exciting Metallurgy Technician Apprenticeship – your launch pad into a high-tech, high impact career. The business carries out a range of metal testing, consultancy and investigative services for a wide range of clients in the oil, gas and renewables industries.

Join the experienced metallurgy team and gain hands-on experience while studying towards a nationally recognised qualification.

As an Apprentice Metallurgist, you'll learn to:

- Carry out and coordinate mechanical testing
- Prepare and examine metallographic samples
- Liaise with clients to agree testing schedules

This is a fantastic opportunity to combine real-world training and academic learning through to degree level taking a distance learning approach.

You will have minimum GCSEs (or equivalent) in Maths and English (Grade 4/C or above); a passion for STEM subjects, particularly materials, chemistry or physics; strong attention to detail; good communication skills; willingness to learn and work as part of a professional team. Candidates with relevant A-levels may be able to go straight onto the degree level programme rather than start with a Level 3 Apprenticeship.

Please send your CV to: rachelb@us2uconsulting.com or telephone **01603 716852**
