

US2U Online Coaching Services: Keep Calm and CHANGE How we Carry On

US2U Consulting have launched a new Online Coaching Service to help businesses meet the imminent work challenges concerning Coronavirus and working from home.

Some of the key service areas we offer include:

- 1:1 and small group-based coaching
- Mental health
- Effective working with a remote team
- Goal setting and time management
- Project management across multi-site work
- Communication when working from home

This may be a great time for businesses to invest in the Leadership & Development of their team to get ahead, ready for when regular work resumes.

Engaging with Generation Z

Rachel Blackburn volunteered to run two Recruitment Interviewing Tips workshops for students at East Norfolk Sixth Form College on 2nd March to support National Careers Week 2020. [Read the full story here.](#)

North West Childline Ball 2020

We attended this charity ball in Manchester on Saturday 29th February - [read more here!](#)

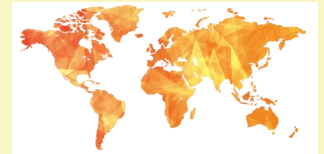

US2U Consulting Coronavirus Update

Throughout the ongoing situation US2U Consulting aim to minimise disruption to regular work and to clients, but will be responding appropriately to the increasing precautions as advised by Government and adopted by businesses and wider society. [Read our full policy here.](#)

US2U Becomes 2020 Export Champion

US2U Consulting have been awarded the prestigious title of 2020 Export Champion by the UK Department for International Trade.

This is in recognition of the international work we have done in recent years, including to Belgium, Canada, USA and the Middle East - and the insights our team can share with other businesses looking to export.

We'll be providing peer-to-peer support; raising awareness of UK DIT's services; and acting as a sounding board for what exporters want, to help create a supportive exporting ecosystem.

Another Positive Testimonial

"I and my fellow Directors have found the services from US2U Consulting to be very efficient. Our experience is that we feel that our needs are listened to, actions agreed and that everything is followed through as expected. In particular whilst working together on a number of quite complex projects we find the communication updates very good - we are always kept in the loop."

Managing Director, Raingear Irrigation Ltd
